

BackgroundWidthController.
OnBeforeSerialize

BackgroundWidthController.
Start

BackgroundWidthController.
Center

```
graph LR; A[BackgroundWidthController.OnBeforeSerialize] --> C[BackgroundWidthController.Center]; B[BackgroundWidthController.Start] --> C;
```

The diagram illustrates a flow where two methods, 'OnBeforeSerialize' and 'Start', both point to a central method 'Center'. The 'OnBeforeSerialize' and 'Start' boxes are white with black borders, while the 'Center' box is solid gray. Blue arrows indicate the direction of the flow from left to right.
