

OutputSlot< IList<
ChefDataVariable > >

```
classDiagram
    class OutputSlotListChefDataVariable
    class OutputSlot["OutputSlot< IList< ChefDataVariable > >"]
    OutputSlotListChefDataVariable --|> OutputSlot
```

The diagram illustrates an inheritance relationship. At the bottom is a gray-shaded class box for `OutputSlotListChefDataVariable`. A blue arrow with an open triangular head points from this box to a white class box above it. The white box represents the base class `OutputSlot< IList< ChefDataVariable > >` and is divided into three horizontal sections: the top section contains the class name, and the two bottom sections are empty.
