

CinemachineExtension

```
classDiagram
    class CinemachineExtension {
    }
    class CinemachineExtensionLayerMask {
        - _layers
        # PostPipelineStageCallback()
    }
    CinemachineExtensionLayerMask --|> CinemachineExtension
```

The diagram illustrates a class hierarchy. At the top is the 'CinemachineExtension' class, represented by a white box with a black border and two empty internal compartments. Below it is the 'CinemachineExtentionLayerMask' class, represented by a grey box with a black border and three compartments. The first compartment contains the class name, the second contains a private attribute '- \_layers', and the third contains a public method '# PostPipelineStageCallback()'. A blue arrow with an open triangular head points from the top of the 'CinemachineExtentionLayerMask' box to the bottom of the 'CinemachineExtension' box, indicating inheritance.

CinemachineExtentionLayerMask

- \_layers

# PostPipelineStageCallback()
