

BlindTransitionDirector.
BlindTransitionDirectorHandle.Start

```
graph LR; A["BlindTransitionDirector.  
BlindTransitionDirectorHandle.Start"] --> B["BlindTransitionDirectorBehaviour.In"]
```

A diagram showing a call from the `BlindTransitionDirectorHandle.Start` method to the `BlindTransitionDirectorBehaviour.In` method. The call is represented by a blue arrow pointing from the left box to the right box.

BlindTransitionDirectorBehaviour.In
