

BlindTransitionDirector.
BlindTransitionDirectorHandle.Start

```
graph LR; A["BlindTransitionDirector.  
BlindTransitionDirectorHandle.Start"] --> B["BlindTransitionDirectorBehaviour.In"]
```

A diagram showing a call from the `BlindTransitionDirectorHandle.Start` method to the `BlindTransitionDirectorBehaviour.In` method. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source to the target.

BlindTransitionDirectorBehaviour.In
