

BlinkingSelectedButton.On
Disable

BlinkingSelectedButton.Update

BlinkingSelectedButton.End
Easing

```
graph LR; A[BlinkingSelectedButton.On Disable] --> C[BlinkingSelectedButton.End Easing]; B[BlinkingSelectedButton.Update] --> C;
```

The diagram illustrates a flow where two separate actions, 'BlinkingSelectedButton.On Disable' and 'BlinkingSelectedButton.Update', both lead to a common final state, 'BlinkingSelectedButton.End Easing'. The first two boxes are white with black borders, while the final box is solid gray.
