

Manager

```
classDiagram
    class Manager {
    }
    class LobbyState {
    }
    class StateUpdate {
    }
    Manager "1" -- "*" LobbyState
    Manager "1" -- "*" StateUpdate
```

The diagram illustrates a class hierarchy or containment structure. A large light blue rectangle with a dashed border represents the 'Manager' class. Inside this rectangle, there is a smaller light blue rectangle with a solid dark border. This inner rectangle contains two smaller light blue rectangles: 'LobbyState' on the left and 'StateUpdate' on the right. The 'StateUpdate' rectangle is further enclosed by a thin dark border, suggesting it might be a nested class or have a different visibility.

LobbyState

StateUpdate
