

BlindTransitionDirectorBehaviour.Out

```
graph LR; A[BlindTransitionDirectorBehaviour.Out] --> B[BlindAnimator.Out]; B --> C[BlindAnimator.OutSequence];
```

The diagram illustrates a three-step process flow. It begins with a grey rectangular box containing the text 'BlindTransitionDirectorBehaviour.Out'. A blue arrow points from this box to a white rectangular box containing 'BlindAnimator.Out'. A second blue arrow points from the 'BlindAnimator.Out' box to a final white rectangular box containing 'BlindAnimator.OutSequence'.
